### IN THE CLAIMS:

Cancel claims 9, 10 and 11, amend claims 1-8 and 12-26, and add new claims 27 through 30 as follows. Please note that the portions in claim 1 as shown below that are in **bold, bracketed and underlined** are **not** to be deleted. The brackets in these portions are important parts of the recitations in these claims and must be retained. Portions in all claims that are **simply bracketed** and neither bolded nor underlined **are** to be deleted.

1. (amended) Method **for the preparation of a vaccine** for [ex vivo] immunization of humans and animals **against tumor cells** comprising the [following] steps of:
- isolating autologous **tumor** [tumour] cells;
  - treating the **tumor** [tumour] cells to prevent the survival thereof following reinfusion;
  - incubating the thus treated **tumor** [tumour] cells with intact heterologous bispecific **and/or** trispecific antibodies showing the following properties:
    - binding to a T cell;
    - binding to at least one antigen on a **tumor** [tumour] cell;
